JOURNAL OF THE
RANCHO SANTA ANA BOTANIC GARDEN

VOLUME 8
1973–1976

PUBLISHED BY
THE RANCHO SANTA ANA BOTANIC GARDEN
Claremont, California

PRINTED IN THE UNITED STATES OF AMERICA

by Allen Press, Inc.

Lawrence, Kansas

TABLE OF CONTENTS

No. 1, July 17, 1973

Sympodomyces, a new genus of Laboulbeniales from New Guinea ..... Richard K. Benjamin 1
Some remarks on the vegetation of southern California .. Philip A. Munz 7
Record of an unusually tall *Yuca schidigera* ..... Philip A. Munz 13
A new northern California *Trillium* ..... Philip A. Munz and Robert F. Thorne 15
Ecological variation in the leaf anatomy of selected species of *Cercocarpus* ..... Theadore H. Mortenson 19
An anatomical and morphological study of Datiscaceae ..... Christopher Davidson 49

No. 2, September 9, 1974

Percy C. Everett (1902–1973) ..... Lee W. Lenz 111
Abronia: II. Anthocarp polymorphism and anatomy for nine species of *Abronia* found in California ..... Ruth C. Wilson 113
A new species of *Dichelostemma* (Liliaceae) from California ..... Lee W. Lenz 129
Comparative wood anatomy of *Malosma* and related genera (Anacardiaceae) ..... David A. Young 133
A phylogenetic classification of the Annoniflorae .... Robert F. Thorne 147

No. 3, September 22, 1975

Philip A. Munz, botanist and friend ..... Sherwin Carlquist 211
A biosystematic study of *Triteleia* (Liliaceae). I. Revision of the species of Section *Calliprora* ..... Lee W. Lenz 221
The chromosomes of *Bloomeria* and *Muilla* (Liliaceae) and range extentions for *Muilla coronata* and *M. transmontana* .... Lee W. Lenz 259
Two new species of *Drosera* from Western Australia .. Larry E. DeBuhr 263
Awobanin from the Birdsfoot Trefoil (*Lotus corniculatus*, Leguminosae) ..... Ron L. Scogin and David A. Young 273
Isoenzymes of *Datura meteloides* (Solanaceae). Developmental patterns and tissue specificities ..... Ron L. Scogin 275
Vegetation zonation in a vernal marsh on the Santa Rosa Plateau of Riverside County, California ..... Kathleen J. P. Kopecko and Earl W. Lathrop 281

Abronia: III. Pericarp and seed coat anatomy and its ecological implications for nine species of *Abronia* ..... Ruth C. Wilson 289
Observations on Thamnidiaceae (Mucorales). New taxa, new combinations, and notes on selected species ..... Gerald L. Benny and R. K. Benjamin 301

No. 4, September 30, 1976

A biosystematic study of *Triteleia* (Liliaceae). II. Chromosome numbers and karyotypes of the species of section *Calliprora* ..... Lee W. Lenz 353
A reclassification of the Siberian Irises ..... Lee W. Lenz 379
The nature of the floral appendages in four species of *Dichelostemma* (Liliaceae) ..... Lee W. Lenz 383
Observations on Thamnidiaceae (Mucorales). II. *Chaetocladium*, *Cokeromyces*, *Mycotypha*, and *Phascolomyces* ..... Gerald L. Benny and R. K. Benjamin 391
Floral UV patterns and anthochlor pigments in the genus *Coreopsis* (Asteraceae) ..... Ron Scogin 425
Anthochlor pigments and pollination biology. I. The UV absorption of *Antirrhinum majus* flowers ..... Ron Scogin 429
The vernal pools on Mesa de Burro of the Santa Rosa Plateau, Riverside County, California ..... Earl W. Lathrop and Robert F. Thorne 433
New species of *Stylidium*, and notes on Stylidaceae from southwestern Australia ..... Sherwin Carlquist 447
Tribal interrelationships and phylogeny of the Asteraceae ..... Sherwin Carlquist 465
